

## RESEARCH PRESENTATION

### **BE A GOOD NEIGHBOR**

Did you watch Mr. Rogers on television when you were little? Did you read any of his books or did your mom or dad read them to you? Well, then, you know what a good neighbor is!

What are some ways we can be a good neighbor in our community? How did Mr. Rogers promote being a good neighbor?

There are a lot of good neighbors in your community. It could be one your neighbors who is active in your community. Pick a group or person in your community who continually demonstrates being a good neighbor and show us about them.

You will have 10 minutes, including set-up and tear-down time to tell us about a good neighbor in your community, someone you look up to and someone you'd want to be like. Discuss what sets a good neighbor apart from others. Interview that person or someone from that group. Has that person or group been written up in the local newspaper? If so, you can use that as a basis for your interview.

Do you think that robotics could be used as a method to foster good neighboring: if so, how? If not, why not?
