Lost in Yerevan

Millie is visiting Yerevan, the capital of Armenia, and she has gotten lost in the city's *Metropoliten*, that is, subway. She is now at the *Shengavit* station, while her planned destination is another station, *Barekamutyun*, and she needs to figure out how to get there.

1. Assuming that Millie takes a train in the right direction, what is the first stop after *Shengavit*? Select your answer from the following list. Note that all names in this list are correct station names, which appear on the map.

(a) *Gortsaranayin*
(b) *Zoravar Andranik*
(c) *Charbakh*
(d) *Garegin Njdehi Hraparak*

2. After boarding at *Shengavit*, how many stops will it take her to get to *Barekamutyun* (not include *Shengavit* itself)?

3. What is the name, transcribed into English, of the end station on the five-station line shown by light grey (which is currently under construction)?
