Running the Program

Follow the steps below to run the MovingForward.rbt program on the robot.

Check robot position
Make sure the robot is properly aligned with the tape and any other markers (e.g. meter sticks) you may be using.

Run the program
Follow the following steps to run the “Moving Forward” program.

1. My Files
You should see “My Files” on your Screen. If not, press the Dark Gray button repeatedly until you do (See Figure A).

2. Software Files
Press the orange button to go to “Software Files”.

3. Select Software Files
Press the orange button to go into Software Files.

4. Select Program
Scroll left and right arrow to find your program by its name. Press the orange button to move on.

5. Run
Press the orange button one last time to run it.
